

# المجتمعة العربية لوتاية النباتات Arab Society For Plant Protection

15 June 2017

## To whom it may concern

The Arab Society for Plant Protection (ASPP) is now in the process of publishing the second edition of the "Dictionary of Scientific Plant Protection Terms" in three languages: Arabic, English and French. It is hoped that this publication will be out in the fall of 2017. This achievement was the outcome of a voluntary serious effort of more than 50 plant protection scientists who worked over two years to complete this job. Dr. Bouzid Nasraoui played a key role in this group effort, especially his contribution to the French component of the dictionary. ASPP is proud to have professional members as dedicated as Dr. B. Nasraoui among its active members, to permit the Society to achieve its goals in serving the plant protection community in the Arab world and beyond.

In addition, Dr. B. Nasraoui is an active member of the Editorial Board of the Arab Journal of Plant Protection, published by ASPP. Based on the request of the Journal editorial office, Dr. B. Nasraoui frequently reviews manuscripts submitted for publication, and his evaluation is always very thorough, and the comments made help the authors significantly improve their papers.

This attestation was provided to Dr. B. Nasraoui upon his request.

Safaa Kumari

ASPP, Arabization Committee Chairperson

Khaled Makkouk

Editor-in-Chief, AJPP

The Arab and Near East Plant Protection Newsletter (ANEPPNEL) is jointly published, three times per year, by the Arab Society for Plant Protection and the Near East Regional Office of the FAO. All correspondence should be sent by email to the Editor ([aneppnl@gmail.com](mailto:aneppnl@gmail.com)).

Material from ANEPPNEL may be reprinted provided that appropriate credits are given. The designations employed and the presentation of material in this newsletter do not necessarily imply the expression of any opinion whatsoever on the part of the Food and Agriculture Organization (FAO) of the United Nations or the Arab Society for Plant Protection (ASPP) concerning the legal or constitutional status of any country, territory, city or area, or its authorities or concerning the delimitation of its frontiers or boundaries. Similarly, views expressed by any contributor to the newsletter are those of the contributor only, and must not be regarded as conforming with the views of FAO or ASPP.
